CRITERION - II

EXAMINATION REFORMS

The college has a well-established office of the Controller of Examinations. It plans and executes the process of examination and the assessment in a systematic manner. Sincere efforts are made by the COE for the smooth, systematic and secured conduct of examinations.

Internal Class Test, Model Examination and Semester Examinations are conducted by an efficient team constituted by the Controller of Examinations. At the beginning of every academic year, the Controller of Examinations, in consultation with the Principal, schedules the Continuous Internal Assessment Test I, Model and Semester Examination. Question papers for the Semester Examination are set by the External Subject Experts of respective courses and scrutinized by the External senior members of faculty of the respective departments. Scribes are provided for differently abled students. Extra time to complete the examination is given to the ailing and differently abled students.

Students are appraised on the working system of the Continuous Internal Assessment and the Semester Examination. The passing minimum for both CIA and Semester Examination is 40% for both UG and PG. Total CIA mark is 25. Marks scored in Internal Test and Model Examination are converted to 10. Seminar, attendance and assignment carry 5 marks each. CIA helps to identify the students' learning level so that remedial measures like extra classes /coaching and individualized academic counseling can be arranged.

The institution follows single valuation for both UG and PG programmes. Components used for assessment varies from course to course depending on nature and need of the subject concerned. Course specific evaluation process provides flexibility to the course teachers in

evaluating the students' performance. Result Passing Board discusses the pass percentage in each course, moderation, discrepancies and malpractices if any before the publication of the results.

Facility for revaluation, re-totaling and photocopies of answer booklet on request make the evaluation process transparent. Reforms in Examination are introduced in the institution based on the recommendations made by IQAC, Examination Review Committee, Board of Studies and Academic Council. Students with 75% of attendance are eligible to appear for the Semester Examination. Students between 65% and 74% are permitted to write the examination after paying condonation fee. The students who come under 65% of attendance are debarred and permitted to rejoin in the same semester.

Special Examinations are held for students on request when they are unable to attend CIA Test I/Model Examination due to their participation in NSS/ NCC/Sports at State or National Level. This is done with the approval of the Principal and the Controller of Examinations. Supplementary Examination is scheduled for the students who have only one arrear in the sixth semester to help them complete the programme in the specified academic period. Effective automation of examination process has streamlined the planning and execution of activities and made it easier and paperless.

Complete automation of Examination Management System has brought in considerable change and advancement in the entire process of the examination. It helps the Controller's Office to attain one of its objectives of publishing the results within fifteen working days after the end of semester exams. The result of Semester Examination is uploaded in the college website.
